

For several years now, K-LOVE has provided me and my family with valuable, insightful and inspiring broadcasting. With several relocations around the United States, K-LOVE is the only radio broadcast we could count on as a Christian family. Recent FCC announcements have me, my family and friends concerned for the future of K-LOVE.

The Low Power FM (LPFM) service may be valuable to some listeners; however, its' service is not considered a priority over K-LOVE in my household, nor our friends in other K-LOVE markets. Allowing LPFM priority over K-LOVE will displace a very large segment of the Christian population of radio listeners. K-LOVE and other radio stations impacted by the introduction of the LPFM service will either cease to exist or resort to broadcasting on alternative mediums such as XM and Sirius radio.

Please do not allow LPFM to overrule the importance of radio stations like K-LOVE.

Thank you.
